SEETHU P B
FULL STACK DEVELOPER

SUMMARY

More than 7 years of IT experience as a developer with skills of FullStack, cloud(AWS) architecturing, devops and Bigdata

KEY SKILLS

JAVA 8+
React
Recoil
AWS
SQL
Big Data
Spark Jobs
GitHub
Devops
Jenkins
Bamboo
Spring Framework
Sprint Integration
CI/CD technologies
Agile Software Development Best practices

TECHNICAL SKILLS

JAVA
SCALA
Spring boot
Play
PYTHON
REACT
ROR
ANGULAR 2+ knowledge
GIT
Bamboo and Jenkins pipelining
Linux scripting
Cassandra
Spark
basic C++ and C#

PROFESSIONAL EXPERIENCE

Technical Lead
IBS

Sep '18 - Present

Trivandrum

Role here is to build technical and architectural solutions, mentoring, team building and maintaining timeline and quality adherence of team

- Designed and developed solutions in **JAVA, AWS and react, JSP, Struts, Spring boots and Gradle**
- Performed Agile methodology using **JIRA** sprint board and sprint practices like scrum meeting, planning, grooming and retrospective
- Monitored and guided team members of **upto 12** to achieve sprint goals and 0 backlogs
- Mediated with BA, Architect and product owners to bring out the best possible technical solutions
- Reviewed code using pull requests and monitor code quality guideline of achieving **95 to 100 % code coverage** using sonarlint in test cases

Software Developer
ATS

Sep '16 - Mar '18

Trivandrum

Created and Developed Bigdata solutions in AWS cloud with Cassandra, Solr, Spark , ROR and Angular 2+

- Redesigned legacy application to **5 microservices** platoforms with technologies like Angular2, ROR, Play with Scala and java
- Tailored **Devops pipeline** setup for CI/CD using bamboo and jenkins.
    - Orchestrated pipelines for **4 environments** development, testing, staging and production
    - Integrated git source code, compile,, build, create snapshot and deploy the jars to EC2
- Included in **AWS server setup, maintenance and deployment with EC2, S3**
- Encouraged and coordinated with **team members of 9** for sprint and project meetings like sprint planning, grooming and retrospective
- Spearheaded research work and suggested 3 suitable technologies like **ROR and Groovy on Grails** and **Angular** for the services and batch jobs to be created
- Devised 4 **spark jobs** for analytical purpose from **HDFS** and executing data analysis on it aggregate and write to cassandra

Systems Engineer
Infosys Ltd

Jul '14 - Sep '16

Trivandrum

Worked in JAVA, ROR, HTML5, CSS3 and Bootstrap

- Formulated solutions in **Java , ROR , HTML5, CSS3** programming methods to suite the given bug and CR and assured 95-100% test coverages
- Corresponded with team members of 8 and team lead for solution and technical adherence

EDUCATION

B.Tech
Lal Bahadur Shastri Institute Of Technology For Women

Dec '10 - May '14

Trivandrum

Graduation in Applied Electronics And instrumentation Engineering
